Experiment 4-A

Student Admission Enquiry Form Using Basic Fields

Aim

To design and build a Student Admission Enquiry Form in Zoho Creator using the Basic Fields available in the Form Builder.

Procedure

The source has no separate Procedure section. Its Workflow Summary is used as the procedure.

1. Applicant opens the public form link shared by the Admission Cell.
2. Applicant fills in personal, contact, academic, and scheduling details across the four sections.
3. On clicking Submit, Zoho Creator validates all mandatory fields and formats.
4. A new record is created in the Admission_Enquiry_Report.
5. An automated confirmation email (using the Email field value) is triggered to the applicant.
6. The Admission Cell reviews the report, filters by Preferred Course, and schedules a counselling call using the Preferred Counselling Time.
