Experiment 5-A

Reports for the Student Admission Enquiry Application

Aim

To design and build a complete suite of Reports in Zoho Creator for the existing "Student Admission Enquiry Form" application, demonstrating the correct usage of all nine Report Types available in Zoho Creator.

Procedure

The source has no separate Procedure section. Its Workflow Summary is used as the procedure.

1. Applicants submit enquiries through the Admission_Enquiry_Form.
2. The Admission Cell monitors incoming enquiries using All_Enquiries_List and Enquiry_Activity_Timeline.
3. Staff track document verification progress using Enquiry_Status_Kanban.
4. Department coordinators use Counselling_Schedule_Calendar to prepare for each day's sessions.
5. The outreach team uses Applicant_School_Map and Course_Wise_Summary to plan school visits and counselling.
6. Management reviews Course_By_Gender_Pivot and Course_Popularity_Chart to adjust seat allocation and outreach.
7. Daily, the Admission Cell uses Enquiries_Spreadsheet to update verification and counselling status in bulk.

Missing Evidence

- No screenshot of the Summary View (Course_Wise_Summary) is provided.
- The source says "nine Report Types" but its table lists eight; Summary View appears only in the description text.
- The Map View is named Scholarship_Eligibility_Percent in the source table but Applicant_School_Map in its description.
- The calendar and timeline screenshots show no entries.

Result

A suite of Reports in Zoho Creator for the existing "Student Admission Enquiry Form" is created.
